Full Stack Software Developer with 2+ years of experience delivering end-to-end solutions in international contexts. I've led the development of scalable platforms and automation tools for companies like DHL, Deloitte, and Refuels N.V., combining technical depth (frontend, backend, DevOps) with business-oriented thinking. Founder of a boutique tech agency serving global clients.

PROFESSIONAL EXPERIENCE

Freelance & Founder Projects – Fullstack Engineer & Technical Consultant

Remote (Argentina, Netherlands, USA, Italy)

Oct 2022 – Present

Tech Stack: Next.js, Laravel, Python, Docker, PostgreSQL, AWS (EC2, S3), Azure, GitHub Actions, Astro.js, Nginx, Bash, Node Js, Typescript, React

- **Career Portal Aruba:** Managed the architectural redesign and infrastructure overhaul (Next.js + Laravel). Built microservices for payments, invoicing, scraping and email automation. Launched SEO-driven blog strategy and managed +10K social media audience. Achieved +80% traffic growth and improved engagement. Collaborated directly with stakeholders from Deloitte, Marriot, CMB, and Remax.
- **Refuels N.V. (Netherlands):** Designed an internal contract management platform (Next.js, modern UI) with focus on accessibility, logging and performance. Reduced processing time by over 60%.
- **Balasci (Netherlands and Italy):** Founded and guided frontend development. Built an AI chatbot that increased conversions by +60%. Implemented SEO strategy ranking top 10 on Google for 10+ keywords within a month.
- **SEO Technical Audits:** Delivered high-performance landing pages (Astro.js / Next.js), achieving Core Web Vitals >95 and significant organic growth for international clients.
- **OCR App for Logistics (Esnaj Software - NL):** Co-developed an AI-powered OCR app (React, Python, Google Vision, ChatGPT) for companies like **DHL Aruba and Mastercargo**. Reduced logistics time by 70% with +90% document recognition accuracy.
- **Trifecta (Tech Studio – Argentina):** Founded a software agency and developed a WhatsApp-based booking automation system (Next Js, Express Js, Python, [Next.js](#), Azure), complemented by an admin dashboard (TriVance). Delivered SEO-optimized Astro.js landing pages, boosting leads by 60%.
